

LETTER OF APPRECIATION

This is to appreciate the contribution of **Alok Shankar M** towards the PES Entrepreneurship Cell (PES E-Cell). The PES E-Cell, set up in 2013 has been instrumental in fostering an entrepreneurial environment at the institute and has helped engage the curious and innovative minds of our students, supporting their ideas and desire to work outside of the regular classroom environment.

Alok Shankar M, as one of the co-founders and initial members of the PES E-Cell, has been actively involved in all its activities right from its inception. He has demonstrated great leadership abilities and organizational acumen in helping the rapid expansion and growth of the E-Cell, which now has over a hundred active members and connects our students to multiple start-ups, entrepreneurs and mentors from the industry. Additionally, he has played a major role in the setting-up the logistics and support for the annual flagship event of the E-Cell, Endeavour, which has helped establish the E-Cell as one of the most active and pioneering student-run organizations in the region.

We applaud the efforts put in by **Alok Shankar M** towards the PES E-Cell, as well as his attitude of helping, connecting with and giving back to his fellow student community. We wish him all the very best for his future endeavors.

Dated: 27th August 2015

Dr. K.N.B. Murthy
PES Institute of Technology
